## SHIPPING INSTRUCTIONS.

When ordering trees please set a date on which you wish your shipment to go forward. This will assure you of receiving your trees when it is most convenient for you to care for them. Express shipments are recommended. Please state explicitly name of express station to which shipment is to be sent.

## LOCATION.

Our nursery is located in Cheshire, Conn., on the College Highway, twelve miles north of New Haven. Trolley cars from New Haven to Waterbury pass directly through the nursery. Good roads from New Haven, Waterbury, Meriden and Wallingford enable you to motor from any of these cities.

When passing through southern New England, do not fail to visit our nursery.

<b>Thuya occidentalis globosa</b>			
Globe arborvitae, pale green	6 in.	.60	5.00
	9 in.	1.50	14.00

Any of these may be used to advantage in the rock garden; all are slow, low growing evergreens, (note one exception.)

For the small rock garden other than the dwarf varieties will in time be too large for the size of the garden. However, these varieties are relatively inexpensive and if after a few years the plants become too large they make valuable plants for use in the home grounds. In the small rock garden where these plants are used we therefore suggest that you do so with the plan to replace when they become too large, using the larger plants elsewhere on the home grounds.

The true dwarf evergreens are marked \*

# Perennials - - Rock Garden Plants

The plants listed are all strong field grown, of a size to bloom the first year in your garden and give immediate results.

The list is made up giving as simply as possible the points which you will wish to know in making the plan for your garden:—

- 1—Height when in bloom
- 2—Color of bloom
- 3—Date of bloom.

Rock Garden plants are marked \*
